

# OCTAVE WATER METER

PRODUCT MANAGER | NICKIE THERON  
DATE | NOVEMBER 2023

## PRODUCT UPDATE

With continuous product improvement in mind, an update has been made to the 50 mm and 80 mm Octave water meters. The body of these water meters has been **changed from epoxy-coated cast iron to stainless steel**. Stainless steel offers several advantages over cast iron. **The flange has also been changed to a floating flange.**
