

# Fertikit™ 3G MS

FertiKit™ 3G is a fully configurable, cost-effective fertilizer/acid dosing unit system that carries out precise Nutrigation™. Operating in four modes depending on site conditions, FertiKit™ 3G optimises the available water flow rate and pressure usage of the main irrigation line to ensure high efficiency at low cost. This unit brings together over a decade of technological know-how and experience. FertiKit™ 3G maintains a proven track record under the most stringent environmental conditions.

Cost Effective

Good Quality

Ease of Maintenance

## Highlights

- ✓ Modular nutrigation system
- ✓ Wide range of soil/substrate applications
- ✓ Built around a standard platform
- ✓ Minimal investment requirement
- ✓ Efficient water, fertilizer and energy consumption
- ✓ Unrivaled range of irrigation water capacities
- ✓ Quantitative or proportional nutrigation capabilities
- ✓ Guaranteed EC and pH control
- ✓ Almost completely maintenance-free venturi operations – no moving parts
- ✓ Highly accurate dosing channels
- ✓ Fast and efficient nutrigation recipe adjustments
- ✓ Manual or fully automated operations
- ✓ Easy integration into existing irrigation systems, Netafim's NMC, and third-party controllers

## Benefits

- Easy to install and maintain system
- In-house developed offering
- Broad application including open fields, orchards etc.
- Very good price/performance ratio

## Fertikit™ 3G Dosing Channels Range

## → TYPICAL INSTALLATION

## → COMPONENTS

- ✓ Quick-action dosing valves
- ✓ Wide range of integrated accessories and peripherals
- ✓ High-quality components and PVC piping
- ✓ Aluminum, corrosion-resistant frame with adjustable legs

## → CAPABILITIES

- ✓ Versatile flow capacity: from 0.1 Ha (nursery) to 400 Ha (suitable for sugarcane plantations, and all other field crops and orchards)
- ✓ Up to 6 x highly accurate 50 – 1 000 ℓ/hour fertilizer/acid dosing channels

\* For applications requiring over 6 dosing channels, please contact Netafim.

FEATURES	STANDARD	OPTIONAL
Controller	NMC – PRO, NMC-XL, NMC-JUNIOR According to customer need	Other controllers in the market or manual system without controller
EC/pH Control	Single measurement	None
Flow Rate	20 – 700 m <sup>3</sup> /hour	
Dosing Channel	Up to 6 x 50-1000 ℓ/hour	Concentrated Acid channel x 50 ℓ/hour
System Pressure	2.5– 8.5 Bar	Up to 9 Bar
